### **DETAILED ACTION**

1. The preliminary amendment filed January 8, 2004 has been received and entered.
2. Claims 1-8 have been cancelled.
3. Claims 9-22 have been added.

### ***Election/Restrictions***

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 9 and 10, drawn to a method for activating peroxisome proliferator-activated receptors, classified in class 424, subclass 756.
  - II. Claims 11, 14, 17, and 20, drawn to a method for preventing and/or treating insulin resistance syndrome, classified in class 424, subclass 756.
  - III. Claims 12, 15, 18, and 21, drawn to a method for preventing and/or treating diabetes mellitus, classified in class 424, subclass 756.
  - IV. Claims 13, 16, 19, and 22, drawn to a method for preventing and/or treating visceral fat obesity, classified in class 424, subclass 756.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. Each invention is drawn to producing a different effect in the body; thus, the patient treated is not necessarily the same patient. Therefore, the inventions are distinct.

Art Unit: 1654

Because these inventions are distinct for the reasons given above and the search required for one group is not required for the other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
